Custom homes on acreage near Pittsboro entering new phase

Stanton Homes building excitement for latest home trends

Holly Springs, NC, Nov 27, 2007 – Stanton Homes today announced the upcoming opening of the latest custom home phase at Cattail Creek, near Pittsboro, NC. Eighteen heavily wooded home sites will soon be available. All lots are 1.4 acres or more, priced from the mid 200s to the mid 300s.

“Some homes will be available within weeks, and others are still in the planning stages,” said Stan Williams, CEO of Stanton Homes. “There’s still time to choose a lot or a model, or find the home of your dreams nearly ready for you to move in.”

With features like elliptical archways, cove ceilings, tray and coffered ceilings, and rounded corners, Stanton Homes offers hard-to-find luxury touches in desirable price points.

“Stanton Homes has established a reputation for building top quality homes without the price tag that buyers expect when they’re looking for extras,” said Williams. “We’re really excited about the opportunities this new phase presents for us to expand our offerings to newly available home sites.

Cattail Creek is just minutes from Chapel Hill and the Triangle. From the intersection of Hwy 87 and Hwy 64, travel north on Hwy 87. Turn left at Silk Hope Gum Springs Rd, then right at White Smith Rd. Cattail Creek is on the right.

“You won’t find acreage like this, with custom homes like ours – at an incredible value – anywhere else in the triangle,” said Williams.

Throughout the Research Triangle region of North Carolina, Stanton Homes is building a reputation of quality, through outstanding craftsmanship you’ll love to call home. Find out more at www.StantonHomes.com.
