

Home Buyers Expo Saturday Feb 28th, 2009

Hot Topics and Local Experts On Hand To Help Homebuyers Make Their Decisions

Durham, N.C. -- Local custom home builder Stanton Homes has been selected to participate in the 16th annual Home Buyers' Fair at The Streets at Southpoint, in Durham on Saturday, February 28, 2009 from 11 AM to 8 PM.

Stanton Homes joins a huge gathering of additional builders, realtors, mortgage companies, insurance companies, suppliers and more who will be featured at the fair.

This free public event gives home buyers and sellers an opportunity to stop by and chat with housing specialists about their specific needs and considerations.

Expert home builders and advisors from Stanton Homes will have a booth at the fair with information about new homes in the Triangle area in a large variety of price points, including a focus on homes in the \$200s to \$400s. They will be speaking with fair goers about Green Building, Green Home Certification, Universal Design or Wheelchair Accessible Homes, Building a New Home, ENERGY STAR, EnergyWise*, and much more.

Information will also be available on the hugely popular Stanton Homes for Heroes program, which offers one of the nation's largest new home incentives to all Veteran and military homebuyers.

Look for the Stanton Homes information booth on the lower level of the center court, near the Main Street exit.

"Let's Talk" mini sessions will be held every half hour, on topics including new credit guidelines, remodeling that pays, staging, top kitchen and bath trends, green products, market changes, and more. A full schedule can be previewed at www.durhamrealtors.org.

"We're looking forward to talking to you about all the opportunities in today's home buying market," said Penny Hull, VP of Marketing at Stanton Homes. "This event will bring a lot of really savvy experts into the room - it's a great place to really learn the latest."

*EnergyWise is a guaranteed energy savings program, with 50-70% off standard heating and cooling costs, using NASA technology and a full Baywise foam insulation package.

About Stanton Homes:

Stanton Homes is one of the Triangle's premier custom home builders, with an emphasis on affordable homes incorporating the latest energy saving technologies. Stanton Homes works from thousands of different floorplans, and offers one of the easiest home building processes available anywhere, and
